Iridium Satellite Phone Rentals

Iridium Satellite LLC (www.iridium.com) is the only provider of a truly global satellite voice and data solution with complete coverage of the earth communications services to and from remote areas where no other form of communication is available. The Iridium constellation of 66 low-earth orbiting (LEO), cross-linked satellites operate as a fully meshed network. It is the largest commercial satellite constellation in the world.

Iridium Network - 9505A Portable Satellite Phone

It is significantly smaller, lighter and more resistant to water, dust and shock than the previous satellite phone and is ideal for industrial or rugged conditions, yet appealing to the traveling professional. This is the most reliable mobile satellite phone currently sold by Realtime Platform.

All satellite phones in the Realtime Platform rental fleet are delivered to endusers in a customised Motorola 9505A phone-bag. This bag provides an extremely useful means for carrying the device and also further protects the device against breakage.
